

# X03<sup>®</sup>

**LITHIUM POWERED  
 FLASHLIGHT  
 WITH**

**135 LUMEN LED**

The INOVA X03<sup>®</sup> is precision-engineered for protection against the elements and extreme use. Powered by 2-123 lithium batteries, the X03 flashlight has a patented optical system, precision machined aluminium reflector with thermal management interface that provides superior light projection and a uniform focused spot with flood beam pattern that offers the brightest model in the X Series line. Whether for trekking, camping or backyard use, the X03 offers a steady stream of far reaching intense light to blaze the way.

**FEATURES:**

- High-Powered, Energy-Efficient Lifetime LED
- Precision Machined Aluminum Body
- Shockproof, Crushproof, Water-Resistant Construction with O-Ring seals
- Patented optical system, precision machined aluminum reflector with thermal management interface
- Lumens: 135
- Run time: Up to 2.5 Hours
- Effective Range: Up to 246'
- Signal Visibility: Up to 2.5 Miles
- Battery Type: 2-123 Lithium Batteries Included
- Dimensions: (Length x Diameter):  
 6" (15.24cm) x 1" (2.54cm)  
 1.24" (3.15cm) head diameter
  - Weight: 5.57oz. (158g)
  - Try me packaging - allow for lighting demonstration
  - Limited Lifetime Warranty USA

3-Position end-cap switch activates momentary on, constant on/off and lockout modes.

Anodized threads provide durability and protection from the elements.

The X-Series feature a 3-way end-cap switch. The end position enhances control especially in overhead operation.
