

TH10

Tactical Halogen Flashlight

Durable, high-impact, and full of light are just a few of the terms used to describe the new BEAMSHOT™ TH10 Tactical Halogen Flashlight. This amazing flashlight is made to give off the brightness and light you've come to expect from a halogen bulb but with an updated hi-tech exterior. An exterior housing that is manufactured from the highest quality aircraft aluminum complete with anodized finish. Durability is another term that just brushes the surface of what the BEAMSHOT™ TH10 Tactical Halogen Flashlight is all about. This incredible compact flashlight is also waterproof and shockproof. This is the kind of flashlight, like its brother the T804, that is perfect for use in home defense, road emergencies, general indoor and out door use. The BEAMSHOT™ TH10 Tactical Halogen Flashlight can also be used in the field and for training by law enforcement and military personnel.

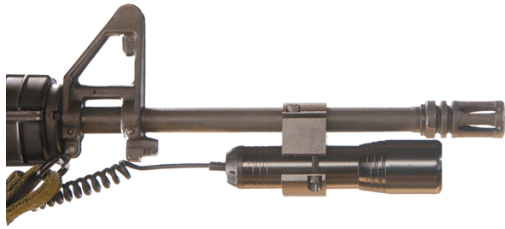

Features:

- Up to 70 lumens of high intensity halogen light (50-hour rating).
- Constructed of 6061 T6 aircraft aluminum for long durability.
- Oring sealed throughout.
- Waterproof and shockproof.
- Anodized finish for improved corrosion resistance.
- Comes with an ON/OFF switch and momentary bungee activation cord for easy one hand operation.
- Fits Industry Standard 1 inch Scope Rings.
