

PRIMARY LITHIUM BATTERY MAILABILITY CHART

Primary Lithium Batteries (small non-rechargeable consumer-type batteries)	Domestic Surface Transportation	Domestic Air Transportation	International & APO/FPO	Mailpiece Weight Limit
<i>Without the equipment they operate (individual batteries)</i>	Mailable	<i>Prohibited</i>	<i>Prohibited</i>	5 Pounds Maximum
<i>Packed with equipment they operate but not installed in the equipment</i>	Mailable	Mailable	Mailable	11 Pounds Maximum
<i>Contained in equipment they operate (properly installed)</i>	Mailable	Mailable	Mailable	11 Pounds Maximum
Note 1 : Each primary cell must not contain more than 1g lithium content.				
Note 2 : Each primary battery must not contain more than 2g total lithium content.				

SECONDARY LITHIUM-ION BATTERY MAILABILITY CHART

Secondary Lithium-Ion Batteries (small rechargeable consumer-type batteries)	Domestic Surface Transportation	Domestic Air Transportation	International & APO/FPO	Mailpiece Battery Limit
<i>Without the equipment they operate (individual batteries)</i>	Mailable	Mailable	Mailable	3 Batteries Maximum
<i>Packed with equipment they operate but not installed in the equipment</i>	Mailable	Mailable	Mailable	3 Batteries Maximum
<i>Contained in equipment they operate (properly installed)</i>	Mailable	Mailable	Mailable	3 Batteries Maximum
Note 3 : Each secondary cell must not contain more than 1.5g lithium content.				
Note 4 : Each secondary battery must not contain more than 8g total lithium content.
